## Did You Know?

Most people do network marketing everyday, but they just don't get paid for it. By becoming a Young Living independent distributor you can earn an extra check every month by doing something that you have done all of your life. All you have to do is recommend these amazing products, share your stories, help people get healthy naturally and the money will start to flow. Have you ever recommended a movie? A restaurant? Has the movie theater or restaurant ever sent you a check in the mail for doing this? No, but Young Living likes to reward people for this so they do and the more you recommend, the more you earn.

## Ways to Earn
