YOUNG LIVING MEMBER #290271

Showstoppers from YL Convention 2008

Where do we begin? Young Living® introduced a bountiful array of new products at their Grand Convention in Salt Lake City.

This newsletter will highlight the fantastic new personal care products that are flying off the shelves. Don't miss your opportunity to enjoy the very latest in Young Living (YL) essential oil-infused products for bath, body, home and travel.

Roll-On Essential Oils Stopped the Show

How can you possibly improve the world's finest essential oils? By making them **spill-proof!**

Young Living just packaged a trio of essential oil blends in tall, slender bottles and topped them with stainless steel roll-on applicators.

Besides preventing spills, when applying essential oils the rollers increase your control of:

–HOW MUCH essential oil you apply, (especially important for children) and

–WHERE you apply the essential oil.

Roll-On Essential Oils Will Stop Your Headaches, Too

Young Living created two new blends for our roll-ons (plus perennial favorite, Valor) knowing how handy they would be for headaches, sore muscles and high-stress days:

SHOWSTOPPERS #3 & #4 Two New Essential Oil Diffusers

If you haven't experienced the pleasure and health benefits of diffusing Young Living oils, start now with the two new diffusers introduced at Convention.

There are few experiences as refreshing as entering a room misted with Young Living essential oils. That's because your air is sparkling clean: Essential oils destroy odor-causing bacteria without CFCs or propellants.

In addition, diffusing certain oils boosts the immune system, guarding your health wherever you go.

Travel Diffuser

Now, with the new Travel Diffuser, purifying the air in your car or other small space has never been more convenient.

NEW Travel Diffuser

The Travel Diffuser works by blowing cool air through an all-natural essential oil pad. Using a quiet but

powerful mini-fan, this little Travel Diffuser generates big output. It can fill a 1000 square foot room with your favorite essential oil. **BONUS!** Receive a free 5 ml bottle of Lavender with your Travel Diffuser.

Ultrasonic Diffuser

This new diffuser can atomize any essential oil, no matter how thick, by using water and ultrasonic vibration to disperse the oil into the air.

NEW Ultrasonic Diffuser

It also offers a deeper well, enabling longer, more continuous diffusing without frequent refilling.

Other unique features include a timer with five different cycle options, a soothing light system guaranteed to set a calming mood in your home and three different diffusion rates for easy saturation control. All of these features make this a great choice for your home or office.
