

Essential Oil Therapies

The Art and Science of Beautiful Skin

Persistent DNA damage, reduced collagen production and advanced dehydration are the primary causes of aging skin. DNA damage is caused in part by repeated exposure to harmful chemicals and sunlight over years, resulting in age spots and uneven skin tone. The skin's ability to produce collagen—the dense, bouncy substance upon which the outer layers of skin rest—weakens with the passage of time. Deficient collagen leads to thinner skin and the appearance of fine lines and wrinkles.

Luckily, better skin at any age is possible when your skin care system addresses the primary causes of aging. The Young Living A-R-T Skin Care System, with a combination of advanced technology and the therapeutic-essential oils that have beautified skin for millennia, combats the causes of premature aging. As you would expect from Young Living, no ingredients are PEG (polyethylene glycol) compounds and all formulas are carcinogen-free. Only minute amounts of two preservatives are used to ensure a stable shelf life. Thus, A-R-T's purity, quality and effectiveness make it far superior to the vast majority of skin care products.

A-R-T Starts Repair and Recovery at the Cellular Level

Most skin care products are cosmetic only: They have no effect on the lower layers of the skin where collagen and cell production take place. The A-R-T Skin Care System is different. Backed by cutting-edge science, it contains a synergistic enzyme-based formula that works at the cellular level to improve your skin:

Photolyase enzymes use visible light to enhance the skin's ability to replenish DNA segments in the damaged cell. Restores up to 60 percent more DNA damage than untreated human cells. Endonuclease enzymes use the body's energy to cut the damaged DNA segment, reproduce the original segment and reinsert it into the correct place in the cell's DNA structure.

Frankincense and sandalwood essential oils sustain DNA recovery, moisturize and revitalize skin. The nutrients and proteins in essential oils help maintain collagen's bounciness. The circulation-stimulating properties of essential oils oxygenate the blood, which energizes the cells and allows regeneration to take place.

A-R-T Delivers Maximum Benefits to Lower Layers of Skin

Laminar Phase technology delivers an equal amount of the active ingredients along the surface of the skin.

The product forms a barrier that allows greater penetration and efficacy. It also retains moisture and helps protect the skin from the environment.

Advanced Lipsome technology delivers ingredients faster and in greater concentrations to the lower layers of the skin.

Because A-R-T is formulated to meet the highest standards in the world, you could reasonably expect to pay hundreds of dollars for it.

-Only the finest European cosmetic ingredients.

-The most advanced skin care technologies.

-Rare and expensive essential oils of Frankincense, sandalwood and German Chamomile.

-Meets the European Union's exacting standards for purity; free of the impurities and by-products found in cheaper materials.

A-R-T Reduces the Look of Fine Lines, Wrinkles and Age Spots

A revolutionary Peptide Complex with Matrixyl 3000 helps increase the elasticity and density of the skin by a factor of at least 200 percent, by producing collagen I, II, IV and fibronectin. Vitamin C is combined with Matrixyl, in order to produce a 50 percent greater increase in skin matrix regeneration than the Peptide Complex alone.

Legendary Wolfberry Seed Oil helps to rehydrate the skin with extra moisturizing properties.

A-R-T is Quick and Easy

While its technology is sophisticated, A-R-T is very easy to use. Just cleanse, tone and treat morning and night with the following products.

A-R-T Skin Care System

The A-R-T Skin Care System will make a visible difference in the way you look—and feel.

Item No: 3131
 Preferred Customer: \$133.16
 Customer Price: \$151.32

1 Gentle Foaming Cleanser:

Gently removes oil, dirt and makeup without irritation or dryness.

2 Day Activator:

Restores damaged DNA. Moisturizes and conditions throughout the day.

3 Night Reconstructor:

Reduces the look of fine lines and wrinkles. Soothes and nourishes skin at night.
