

## Product Summary

Essentialzymes-4 is a multi-spectrum enzyme complex specially formulated to aid the critically needed digestion of dietary fats, proteins, fiber, and carbohydrates commonly found in the modern, processed diet. The dual time-release technology releases the animal- and plant-based enzymes at separate times within the digestive tract, allowing for optimal nutrient absorption.

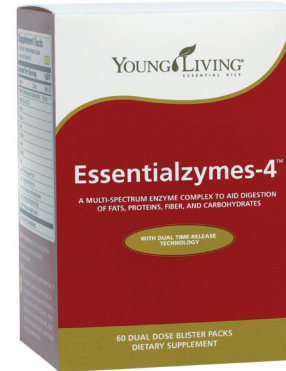

## Product Story

Essentialzymes-4 combines both animal- and plant-based enzymes into a single solution to help the body more completely break down problematic foods such as high fats and excessive starch. When this occurs, the body can more readily absorb key nutrients and amino acids. The plant-based enzymes capsule is designed to release immediately upon entering the stomach, where the pH environment is broad, acidic, and more conducive to plant-based enzyme breakdown and proper absorption. The animal-based enzyme capsule is formulated to delay its release in the lower intestine region, where the environment is more alkaline and the pH level is better suited for animal-based enzyme breakdown and proper absorption.

Essentialzymes-4 can be used daily with meals for optimal digestive benefits.

## Primary Benefits

- + When consumed with meals, Essentialzymes-4 provides key digestive enzyme groups needed for the proper breakdown of fats, proteins, fiber, carbohydrates, and processed foods.\*
- + Formulated to support a more complete digestive cycle.\*
- + Daily use enhances nutrient absorption, unlocks food minerals, improves critical energy uptake derived from food, and supports the generation of vital amino acids needed for healthy cells and organs.\*
- + Each capsule is infused with essential oils such as lemongrass, ginger, and fennel to soothe and assist with minor intestinal discomfort.\*

## How To Use

Take two capsules (one dual dose blister pack) two times daily with largest meals ( four capsules total).

## Did You Know?

- + Lemongrass essential oil is used in many teas to soothe minor digestive discomfort.
- + Fennel is listed on one of the oldest known medical records, the Ebers Papyrus, that dates from the 16th century B.C.

## Caution

Keep out of reach of children. If you are pregnant, nursing, taking medication, or have a medical condition, consult a health professional prior to use.
