

Accelerate Your Path to Leadership with **ELITE EXPRESS!**

An expansion of Silver in 6 (Si6), Elite Express will reward even more members with free products and gear for accelerating their dreams and achieving leadership ranks within a set number of months!

How it Works: There are four tracks that you can join, with the first track beginning the first time you reach the rank of Star. In order to qualify, you must maintain your prequalifying rank during the entire qualification period for each track, which begins the month after reaching the prequalifying rank for the first time. This allows a little extra time to qualify and hit the ground running.
