

If you find you are ordering products regularly, you might want to consider the essential rewards (autoship) program. The advantages are:

- reduced shipping
- free products with qualifying purchases
- 10% product credit months 1 to 6
- 15% product credit months 6 to 12
- 20% product credit months 13 on

For example, a \$150 order at 10% would bring you a \$15 product credit. Add these up over time and cash them in for free products. Note that the autoship is flexible, meaning you can change the products in it and also cancel it at any time. You can follow these links for additional information:
