

NATURE'S  ULTRA

NATURE'S ULTRA CBD
infused with
YOUNG LIVING ESSENTIAL OILS

PURITY PLUS PERFORMANCE

BOTTLED WITH INGREDIENTS YOU CAN TRUST

Thanks to Young Living's Seed to Seal® quality commitment, each drop is backed by conscientious sourcing, science, and standards. Experience the power of plants when Young Living essential oils and CBD combine.

CBD, or cannabidiol, is a plant-based compound found in hemp. Pure CBD—known as CBD isolate, has 0.0% THC, which is the mind-altering chemical found in marijuana. Nature's Ultra CBD is tested and verified through third-party testing to ensure you're getting a high-quality product.

HOW IT WORKS

The marriage of CBD oil and Young Living essential oils brings out the best in both. Nature's Ultra extracts pure CBD and combines it with the best essential oils in the marketplace to provide an exclusive formula that has 0.0% THC!

The essential oils in each product are extracted through careful steam distillation, resin tapping, and cold pressing. Our process delivers essential oils in their pure form, so you get the best nature has to offer.

PURE ESSENTIAL OILS, TRANSFORMATIVE SCENTS
