

PRODUCT GUIDE

2015

WELCOME

Welcome, Friends!

The guide you hold represents our two decades of hard work, research, discovery, and unmatched expertise. We are thrilled to celebrate every milestone that has brought us, as a global community, to this landmark anniversary.

You can scarcely imagine a more humble beginning than ours. From what started on a remote farm in Idaho with a homemade pressure cooker distiller, Young Living has grown into the World Leader in Essential Oils®—an international presence with markets and farms around the world. More than our growth, however, this anniversary celebrates a legacy of transforming lives through the power of pure essential oils and our exacting Seed to Seal® process.

Authenticity, sustainability, and efficacy are personal passions for me. The Seed to Seal promise allows us to deliver the pure, authentic essential oils that change lives; and it's why, even after 20 years, Mary and I are still passionate about what we do. For us, 2014 is about nothing less than the promise of true, lasting wellness that each precious drop holds.

If you believe that your family deserves to harvest the benefits of nature's solutions every day, without compromise, we agree. We encourage you to discover how our products can replace harsh chemicals in your home, support your body, reveal your natural radiance, and help you find an oasis of calm in a world of noise.

We believe that life's truest, most lasting solutions are found in nature. After experiencing the Young Living lifestyle and Seed to Seal promise for yourself, we think you will agree.

Sincerely,

D. Gary and Mary Young

Our PURPOSE

Eucalyptus Radiata

Bringing greater wellness and abundance to people all over the world has always been the top priority for Young Living Founder and CEO D. Gary Young. He won't rest until his unique message and products have been taken to every home in the world.

Growth FACTS

In 2014, Young Living launched 21 new products, 13 of which are new essential oils.

In 2014, our active members and sales more than doubled.

Young Living essential oils come from over 50 different sources and are all worthy of the Seed to Seal® distinction.

A Young Living member plants a frankincense tree at the Young Living farm in Salalah, Oman.

Frankincense trees flourish on the island of Socotra off the coast of Yemen.

Our promise of purity from **SEED TO SEAL**

OUR EXCLUSIVE SEED TO SEAL® PROCESS INCLUDES FIVE CAREFUL STEPS:

SEED – Potent essential oils come from plant species that have been authenticated by Young Living and industry experts through scientific research, field study, university partnerships, and on-site planting certification. Selecting seeds that produce the highest value is a vital first step in our Seed to Seal process.

CULTIVATE – Young Living’s knowledge of soil preparation, balance of sun and water, responsible weed and pest control, and wild craft harvesting ensure that stringent standards are met, both on our own farms as well as with our carefully monitored partner farms. We continue to conduct research and remain dedicated to growing the highest quality aromatic plants.

DISTILL – Combining ancient and modern techniques, Young Living’s low-pressure steam distillation process ensures that the beneficial plant compounds in each batch of essential oil remain uncompromised. This step is completed at just the right time to ensure all beneficial constituents are present to maximize the quality of the oil. Additionally, we use tree resin hydrodistillation for select oils and cold pressing techniques for most of our citrus essential oils.

TEST – Young Living never accepts diluted, cut, or adulterated essential oils. To guarantee consistent quality, our essential oils are tested in our own internal labs, as well as in third-party facilities, to ensure that they meet demanding specifications, exceed international standards, and contain the optimal levels of natural bioactive molecules.

SEAL – We complete our Seed to Seal process by carefully sealing and inspecting each bottle of essential oil at our 107,000-square-foot state-of-the-art clean-room facility and then shipping to members worldwide. Individual bottle labels are encoded with detailed tracking information that allows Young Living to trace each bottle of essential oil back to its source.

A Look at Our Farms AROUND THE GLOBE

To ensure that Young Living is able to control every step of the Seed to Seal process, we own eight farms on four continents and partner or co-op farm with many other farms around the world. Gary Young personally travels the globe to scout farms that offer ideal conditions for growing our premium botanicals. This personal, direct involvement in the growing process is what allows us to ensure that each product delivers the purity and efficacy our members have come to expect.

HIGHLAND FLATS, NAPLES, IDAHO, USA

The site of both the Winter Harvest and Spring Replanting events, the scenic Highland Flats

Tree Farm is where

members are able to experience our Seed to Seal process firsthand. The farm grows and distills Idaho balsam fir, Western red cedar, pine, Idaho blue spruce, and other conifers and is the home of the world's first fully automated, state-of-the-art distillery.

FORT NELSON, BRITISH COLUMBIA, CANADA

Purchased in 2014, our Northern Lights farm grows and will soon distill black spruce, ledum, yarrow, and other botanicals. As

part of our commitment to sustainability, this scenic farm will also be the site of continuous reforestation of the trees we harvest, including the black spruce trees, which are crucial for our popular Valor essential oil blend.

MONA, UTAH, USA

Our farm in Mona has been growing lavender, hyssop, clary sage, peppermint, goldenrod, and more since 1995. It now also grows einkorn grain. This beautiful farm hosts our annual Lavender Days celebration and many other special events.

SIMIANE-LA-ROTONDE, FRANCE

Celebrated for its rolling hills and fields of fragrant lavender, the region of Provence, France, is home to our third farm. This picturesque

farm grows lavender, lavandin, rosemary, clary sage, and einkorn grain.

SALALAH, OMAN

Since 2010 Young Living has partnered with local Omani harvesters to obtain and secure our supply of Sacred Frankincense resin.

Young Living is the first and only company in the world to obtain permission to distill and export this precious essential oil and bring it into the Western world.

GUAYAQUIL, ECUADOR

The lush, fertile soil in Guayaquil creates a superb environment to grow unique and rare botanicals such as eucalyptus blue, ylang ylang, chocolate,

dorado azul, and ocotea, among many others. This farm's state-of-the-art distillery is the largest in South America.

IKUITOS, PERU

After much investigation and interaction with government officials, Young Living has purchased more than 3,400 acres of wild

Amazon rain forest, where we are building a distillery, researching wild-crafting of native plants and trees, and distilling them to produce essential oils for Young Living.

ST. MARIES, IDAHO, USA

These now-200 acres of pristine farmland were Gary Young's first farm purchase and where Young Living started. Never before or since exposed to harmful, modern farming techniques, this farm produces botanicals such as lavender, melissa, and tansy.

Partner Farms

Besides our own farms, Young Living partially owns many others around the world in partnership with independent growers. Our partners agree to adhere strictly to our Seed to Seal process and are carefully vetted for compliance. Through our partner farms, Young Living is able to support local independent farming while maintaining our absolute commitment to quality.

Co-op Farms

We also source many of our essential oils from co-op farms around the world. These respected growers work exclusively with Young Living and pledge to adhere strictly to our Seed to Seal process. As an investor in these farms, we closely monitor the quality and authenticity of the botanicals and oils they provide.

Qualified Vendors

We also purchase many of our essential oils from a variety of global vendors whose suppliers abide by our stringent, demanding Seed to Seal process. We rigorously and thoroughly test the essential oils provided by these vendors.

What are ESSENTIAL OILS?

As the World Leader in Essential Oils®, we offer hundreds of single oils, blends, and oil-infused products, each containing the optimal levels of specific, naturally occurring constituents to maximize their benefits. Whether you use oils for aromatherapy, personal care, or household solutions, every aspect of daily life can benefit from the incorporation of essential oils!

Ylang Ylang

OIL AND OIL-INFUSED PRODUCTS

Pure, therapeutic-grade essential oils are the foundation of everything Young Living does.

We offer products in four categories designed to enrich and simplify your life, every day:

ESSENTIAL OILS

True wellness can be found when harmony exists between the mind, body, and spirit. This synergetic relationship has driven how we formulate products from day one. Use essential oils neat, as blends, or as infusions in our other great products to bring total mind-body wellness to your life.

See page 14 for Essential Oils.

AT HOME

Young Living brings you natural products that you can use every day to keep your home and family clean and safe, all while avoiding the dangerous toxins found in many of today's cleaners, hygiene products, and other household items.

See page 48 for At Home.

HEALTHY & FIT

Formulating powerful, essential oil-infused products, Young Living offers many healthful options that not only satisfy nutritional needs but your taste buds as well!

See page 60 for Healthy & Fit.

PERSONAL CARE

Our essential oil-infused shampoos, lotions, and targeted skin-care products will reveal your natural glow as they cleanse, moisturize, and nourish with natural formulas free from harmful chemicals. Pamper your body from the outside in!

See page 76 for Personal Care.

How to Use ESSENTIAL OILS

Follow label instructions and the guide below to experience the transformative benefits of essential oils.

AROMATICALLY

Use essential oils aromatically to uplift the spirit.

- Rub 2–3 drops of essential oil between your palms and inhale.
- Add a few drops of essential oil to a bowl of hot water. Cover your head and bowl with a towel. Breathe deeply and slowly.
- Use your favorite essential oils in our diffusers.

New Look!

TOPICALLY

Many essential oils are safe and beneficial to use directly on the skin.

- Place 2–3 drops of essential oil directly on the desired area and massage in. Repeat as desired. Always follow the label's dilution instructions.

Caution: Essential oils are very potent and may be irritating to the skin. If irritation occurs, apply Young Living's V-6™ Vegetable Oil Complex or any pure vegetable oil to the area to dilute. Citrus-based oils and blends may cause temporary photosensitivity.

INTERNALLY

When taking essential oils internally, try these tips:

- Place several drops of oil into a gelatin capsule (see page 47) and swallow with water.
- Add 1–2 drops of essential oil to a glass of water, NingXia Red®, juice, yogurt, your favorite sweetener of choice, or plant-based milk and swallow.
- Add 1–2 drops of oil (to taste) to meals when cooking.

Note: Always consult individual product labels for usage directions.

"Idaho Blue Spruce is a very comforting and uplifting scent to me. I put it on my ears, wrists, and the back of my neck, as well as diffuse it when I'm in need of something to uplift my mood!" Jessica Lepsch: Executive, Texas

Melissa harvest at the St. Maries, Idaho Young Living farm.

Introducing the **NEW LOOK** of Young Living

With distinctive new packaging and labels as beautiful as their aromas, our essential oils and blends will be more shareable than ever. Get conversations started with our gold-capped exclusive blends and silver-capped singles in clear amber bottles that show off the precious oils inside.

Lime Tree

Beautiful new things are on the horizon for Young Living. Keep an eye on our products, labeling, promotional materials, website, and beyond as we reveal an inspiring, vibrant new look for Young Living in 2015.

Enjoy the convenience of our roll-ons? Now there's even more to love. Each roll-on will arrive at your doorstep encased in a bright paper tube made with recycled Idaho balsam fir, pine, and Idaho blue spruce chips from our own farm distilleries. These custom cases will proudly bear our exclusive Seed to Seal® stamp, a reminder of the state-of-the-art process we take to bring you the highest quality essential oils in the world!

We can't wait to offer you a beautiful new brand that makes sharing Young Living easier than ever, with the same unmatched quality we have maintained for the last 20 years and counting!

ESSENTIAL OIL

products

Essential oils are the foundation of everything we do at Young Living and are at the center of our mission to change lives for the better. In this section we share with you the core of our product lines: effective, 100% pure essential oils backed by our Seed to Seal promise. On every page you will find keys to greater wellness for you and your family.

Essential Oil SINGLES

Over the past two decades, Young Living has researched and perfected a proprietary Seed to Seal® process that creates the world’s finest essential oils. We verify the most beneficial seed species, follow pure cultivating practices, participate in the entire distillation process, implement rigorous testing for quality assurance, and seal and inspect all individual bottles before carefully shipping them worldwide. Our dedication to perfection is what makes us stand out in our field as the world leader in essential oils.

In this illuminating book, D. Gary Young chronicles the history of ancient grains and tracks their changing relationships with humans, from staff of life to potentially harmful ingredients, hybridized wheat, and genetically modified grains, found in nearly every food product. The book discusses the benefits of einkorn grain, an ancient heirloom grain that remains untouched by hybridization. It also describes how some of the chemicals in our foods today are found to be responsible for health challenges.

We take the stewardship of our planet seriously. Our state-of-the-art production process brings you the purest oils on Earth.

We call it

SEED^{TO}SEAL[®]

It's not a slogan—it's our calling.

Our rigorous, proprietary Seed to Seal[®] process is what sets Young Living apart. It is how we ensure that every single Young Living product you order has been produced with unmatched attention to quality and sustainability. You will begin seeing this exclusive seal on many of your favorite products as a reminder that in each drop of our essential oils, you will find unsurpassed purity and effectiveness.
