

Aria™ Ultrasonic Diffuser

Product Summary

Young Living's Aria Ultrasonic Diffuser is a unique, stylish way to bring the benefits of essential oils into your home or workplace. This system combines the latest in diffuser technology with a variety of useful features. The included remote lets you choose from a selection of soothing, built-in sounds or enjoy the multicolored LED lights. With the built-in speakers, you can plug in your own personal music device and enjoy the music of your choice.

Primary Benefits

- + Elegant ultrasonic mist gives any space a spa-like atmosphere. Set the mood by selecting from a range of LED light colors.
- + Natural materials like a durable American maple base and glass dome direct the essential oil vapor.
- + Matching wood remote control allows you to turn on the Aria from any spot in the room.
- + Choose from twelve minutes of relaxing music played through internal speakers or plug in your own personal music player with the provided AV cord and listen to any music you choose.

What Makes This Product Unique?

Young Living has partnered with Puhzen, the premier ultrasonic diffuser designer and manufacturer, to offer the Aria diffuser. The Aria is made of more natural materials and also boasts a built-in music system to increase its relaxing qualities. A stylish essential oil diffuser that can be placed comfortably in the home or office, the Aria will make sharing Young Living essential oils a breeze.

How To Use

- + Assemble the Aria by fitting on the splash guard, ventilation attachment, and electrical plug.
- + Fill with distilled or filtered water up to the water indicator line.
- + Place 15 to 25 drops of Young Living essential oil into the water well (more if you prefer increased oil vapor in the air).
- + Turn the Aria on using the remote and enjoy!

Home Diffuser Rating

Durability: When frequently cleaned, the Aria will remain beautiful and in proper working order. The dome is made of glass and may break if dropped.

Aria™ Ultrasonic Diffuser

Portability: When moving the Aria from place to place, tip it sideways as indicated in the instruction manual to empty the oil and water, then unplug it and carefully transport. The Aria works best on firm surfaces like a bed stand, counter, or desk.

Aroma Coverage: The Aria diffuses well in an average-sized bedroom or kitchen (200 to 300 square feet) depending on the amount of essential oil used.

Noise: The only noise from the Aria is the slight rippling of the moving water and soft hum of the internal fan pushing out the essential oil vapor.

Therapeutic Value: In general, the more essential oil put in the air, the more therapeutic benefits the user will experience; if less oil is used, fewer therapeutic benefits will be present. For the strongest therapeutic experience, use a diffuser that doesn't utilize water, such as Young Living's TheraPro™ Atomizing Diffuser.

Frequently Asked Questions

Q. Does the Aria turn off when the water is gone?

A. Yes. Feel free to leave the Aria running. An internal trigger will turn off the diffuser when it senses the water is gone.

Q. What kind of word is "Aria"?

A. "Aria" is a musical term used to describe a piece of music written for a solo voice. The name fits perfectly with the unique elegance of the diffuser's natural and musical features.

Q. What are the cleaning recommendations?

A. Wipe down the diffuser after every use with a clean, dry cloth. The glass bowl is

dishwasher safe. If oil builds up, wipe down with Thieves® cleaner.

Q. What if there is less mist than before?

A. For increased essential oil vapor, frequently top off the water to the fill line. Also, move the glass spout to the opposite side of the ventilation hole.

Q. Will the wood stain?

A. The wood base is lightly coated to resist staining. To minimize any risk of staining, simply wipe down after every use.
