

# TheraPro™ Premium Diffuser

## Product Summary

Enjoy the ultimate therapeutic experience and the most advanced diffuser technology with Young Living's TheraPro diffuser. This atomizing diffuser features durable, high-quality components that will stand up to repeated use in any environment and is the ideal way to experience the healing benefits of essential oils.

## Primary Benefits

- + Directional control spout and sound reducer.
- + Revolutionary nebulizer technology atomizes a micro-fine essential oil vapor of approximately one to three microns.
- + Young Living essential oil bottles attach directly to diffuser for less mess.
- + 15 ml capacity for long-lasting diffusing.
- + Adjustable on and off time cycles up to twenty minutes. Pressure can also be set up and down for desired oil volume.

## What Makes This Product Unique?

Young Living has partnered with top diffuser manufacturer E.S. Innovations to bring the most

advanced diffuser technology to Young Living members. The TheraPro's atomizing technology turns the oil into micro-sized particles that enter the air more quickly, giving the body immediate therapeutic benefits. Young Living essential oil bottles attach directly to the diffuser, eliminating mess and clean-up. For long-lasting therapy, a built-in timer diffuses essential oils on and off for up to twenty minutes.

## How To Use

- + Remove cap and reducer from a 15 ml bottle of Young Living essential oil.
- + Firmly attach the black atomizer onto the oil bottle.
- + Attach the atomizer and bottle onto the diffuser pump.
- + Turn on the volume control to desired output capacity, then choose the on and off timing setting.

## Home Diffuser Rating

*Durability:* The TheraPro is the most durable diffuser on the market. Traditional nebulizers have breakable glass, but the TheraPro is made of unbreakable, stain-resistant composite materials.

*Portability:* When moving the TheraPro from

# TheraPro™ Premium Diffuser

place to place, simply unplug the unit and remove the oil bottle from the atomizer. Be careful not to tip the unit when an oil bottle is attached.\*

*Aroma Coverage:* The TheraPro can cover a very large room (between 600 and 800 square feet). If used in a smaller room, simply turn down the air pressure.

*Noise:* The TheraPro pump has a slight hum and the oil softly hisses from the atomizer. The strength of the noise depends on how high the diffuser pressure is adjusted.

*Therapeutic Value:* The TheraPro is the ideal Young Living diffuser for therapy because it releases a large amount of micro-sized oil particles into the air.

## Frequently Asked Questions

**Q.** Does the TheraPro turn off when the oil bottle is empty?

**A.** The TheraPro does not turn off when the oil is gone from the bottle. However, an empty bottle will not affect the performance of the pump. Simply turn off the pump when you are done using the diffuser.

**Q.** How fast will a 15 ml bottle of essential oil diffuse?

**A.** The amount of time it takes to diffuse a 15 ml bottle of oil depends on the diffuser's adjusted volume and the weight of the essential oil single or blend that is being diffused. Young Living tested the TheraPro at the highest volume using Peace and Calming® essential oil blend. The 15 ml bottle emptied in seventeen hours.

**Q.** Is it okay to have more than one black atomizer?

**A.** It's a good idea to have a couple of atomizers on hand to use with different oils.

**Q.** What are the lights for?

**A.** The green light indicates that the diffuser is on. The yellow light shows that the diffuser is off, or in rest mode.

*\*Caution: Do not tip TheraPro with bottle or atomizer attached. If oil enters the air pump damage will occur.*
