HANDS ON

THE POWER OF THIEVES—NOW IN A PUMP!

Young Living is excited to introduce the latest and greatest addition to our Thieves® line of household products, Thieves Foaming Hand Soap.

This gentle soap defends the skin with the power of Young Living's essential oil blend Thieves, cleanses with therapeutic-grade lemon and orange essential oils, and conditions with a proprietary blend of skin-nourishing ingredients, including aloe, *Ginkgo biloba*, and vitamin A. These mild ingredients work together to purify and to promote soft, healthy skin while minimizing skin irritation.

The active ingredient in this new hand soap, the powerful Thieves oil blend, not only guards against undesirable microorganisms but also adds a sweet aroma and helps to keep the hands clean even after washing them. The self-foam-

ing pump dispenses a rich lather that is pH balanced to maintain your skin's natural moisture and is dermatologist tested.

Keep Thieves Foaming Hand Soap next to every sink in your house to ensure your hands, and your family's hands, are kept clean and pure every day. It's also a great way to create interest in Young Living's products when others are visiting your home. Be sure to take a bottle to the office and anywhere else the power of Thieves is needed!

With the rich smell of clove, cinnamon, and citrus oils, Thieves Foaming Hand Soap will turn washing your hands into an aromatherapy experience. This wonderful new product will be available for individual sale—or purchase a 3 pack and save 10 percent—starting May 1, 2007.
